

Daniel D. Moran

Senior Scientist
dmor@nilu.no

Citizenships:
Norwegian, USA

Positions

Senior Scientist – The Climate and Environment Institute NILU Working to link empirical measurements from the EU Copernicus observation infrastructure to carbon accounting.	Trondheim, Norway	2022-present
Research Professor – NTNU PI and research scientist advancing Scope 3 footprint and LCA carbon accounting. Graduate teaching and supervision experience.	Trondheim, Norway	2013-2022
Co-founder – KGM & Associates Pty. Ltd. Consultancy specializing in international trade analysis. Clients include Amazon.com, McKinsey, Deloitte, KPMG, EY, Accenture, S&P Global, UNCTAD, IMF, and the World Bank.	Sydney	2012-present
Visiting Scholar, Yale University	New Haven, CT	Winter 2016
Visiting Scholar, Kyushu University	Fukuoka, Japan	Autumn 2015
Visiting Scholar, Tohoku University	Sendai, Japan	Summer 2012
Responsible Investment Association of Australasia Created carbon accounting curricula.	Sydney	2007 – 2009
Senior Analyst – MSCI, Inc. Financial modeling of ESG risk.	New York	2007 – 2009
Program Director – Global Footprint Network Footprint modeling. Co-authored the WWF Living Planet Reports.	San Francisco	2003 – 2005
Cengage Learning Assistant to Nobel prize-winning economist Paul Romer writing an economics MOOC.	San Francisco	2001 – 2002

Education

PhD, School of Physics – The University of Sydney	Sydney	2013
MS, Environmental Studies and Sustainability – Lund University	Lund, Sweden	2007
BA, Philosophy (minor in Computer Science) – Whitman College	Walla Walla, WA	2001

Grants and projects (total: €13.7; as PI: €39)

- 2022. Partner. Actionable Data Indicators for Consumption-Based Emissions: London and New York City (**\$110,000**; Funder: C40 Cities)
- 2020. Partner. The Economics of Planetary Boundaries (**\$2,080,000**, Funder: Sweden/FORMAS)
- 2019. PI. Young Research Talent Grant (**\$900,000**, Norwegian Research Council)
- 2018. PI. Development of the UNCTAD-Eora Global Value Chain database (**\$25,000**, UNCTAD)
- 2018-2019. Invited contributor. National Center for Ecological Analysis & Synthesis (NCEAS) working group on footprinting food.
- 2018. PI. Value-at-risk to global supply chains from ecosystem services (**\$50,000**, UNEP)

- 2017. The Carbon Loophole in Climate Policy: Quantifying the Embodied Carbon in Traded Products (PI, **\$100,000**, ClimateWorks Foundation)
- 2016. FOOTPRINTS2.0: Linking Spatial GIS Data to MRIO Global Economic Models (**\$700,000**, Norwegian Research Council) (Conceived and wrote the proposal, and worked as lead researcher)
- 2015-2019. Contributing researcher. PRINCE: Policy-relevant indicators for national consumption and environment (total budget **\$1,500,000** Funder: Sweden/MISTRA)
- 2013-2016. Contributing researcher. CARBON CAP project on demand-side emissions reductions strategies (total budget **€3,500,000**, funder EU FP7)
- 2011-2014. Contributing researcher. CREEA project on environmental and economic accounting practices (total budget **€4,400,000**, funder EU FP7)

Awards and Memberships

Research.com Ranking: Top 10 Economists in Norway 2023

Clarivate/Web of Science - Highly Cited Researcher 2022

Clarivate/Web of Science - Highly Cited Researcher 2021

Clarivate/Web of Science - Highly Cited Researcher 2020

Clarivate/Web of Science - Highly Cited Researcher 2019 (this award is given to the top 0.1% of working scientists)

Stanford/Elsevier/Scopus: Highly cited researcher during 2021

Top 1.26% percentile in Environmental Sciences; top 3% in Economics

Stanford/Elsevier/Scopus: Highly cited researcher during 2020

Top 1.52% percentile in Environmental Sciences

Stanford/Elsevier/Scopus: Highly cited researcher during 2019

Top 1.55% percentile in Environmental Sciences

Member of the International Input-Output Association since 2012

Member of the International Society for Industrial Ecology since 2015.

Member of the European Geophysical Union since 2022.

Peer-reviewed Publications

I have authored and coauthored 79 peer-reviewed papers, 35 of those as first or second author. According to Google Scholar my H-index is 45 and my papers have been cited over 13,000 times.

Full reference: <https://scholar.google.com/citations?user=oFdEV-gAAAAA&hl=en>

Since 2022 I have served as an Advisory Board member for *Environmental Research Letters*

Since 2014 I have served as a Board member for *Energy, Ecology and Environment*

From 2017-2021 I served an Editorial Board member for *Sustainability*, in the Economic, Business and Management Aspects of Sustainability section.

Teaching

Input-Output Analysis, Trade, and Environment (TEP4222, 7.5 ECTS credits), main teacher. 2021. 2020. 2019. Co-instructor in 2022.

Industrial Ecology and Input Output Analysis (EP8119, 7.5 ECTS credits, doctoral seminar), course lecturer. 2021, 2022.

Lecturer at Environmental Diplomacy and Geopolitics (EDGE) Summer School, Bratislava School of Economics, August 2017.

Invited as one of six instructors on the 14-day Lund University "SAIL" sustainability course for undergraduate and masters students held at sea aboard a working square-rigged brig. My student group developed and ran a paper-based version of the Club of Rome World3 model as a classroom game.

Completed NTNU's Uni-Ped pedagogics certification (200 hours) in 2020. This certification is offered for NTNU faculty seeking promotion to full professor.

Constructing MRIOs. Delivered full-day course at 19th International Input-Output Association Conference, Alexandria, VA USA. 2011.

Supervision

Postdoc Heran Zheng, 2020-2022

Heran is a productive and skilled researcher. He has pioneered new tools for MRIO construction using maximum entropy methods. Since completing his PhD in 2020, Heran has accumulated an H-index of 22 and 53 publications in high-ranked journals, including 3 in Nature-family journals.

Postdoc Johannes Többen, 2018-2021

After completing his postdoc at NTNU, Johannes went to a dual position, 50% with a leading econometrics consultancy in Germany, and 50% with the Potsdam Institute for Climate Research. Johannes has led or contributed to 36 scientific publications. He has a competency in using maximum entropy methods to reconcile and combine complex datasets.

PhD student Kajwan Rasul (expected graduation summer 2022).

Supervised Master's student Milda Petersone (resulted in two papers; see above)

Supervised Master's student Max Koslowski (resulted in one paper; see above)

Public Outreach

Journal interviews and citations noted above with associated papers.

Editorial in The Washington Post, "The glaring loophole in our climate policies". September 13, 2018. <https://www.washingtonpost.com/news/theworldpost/wp/2018/09/13/carbon-emissions-2/>

With four masters students, designed a museum exhibit "The Carbon Footprint of Cities" which featured interactive wooden cubes and digital content on the drivers of carbon footprints and practical action tips for students and adults. The exhibit was part of a year-long installation at the Trondheim Science Museum. The Norwegian Prince, Prince Haakan, visited our exhibit at the FUTURUM science festival.

Lectures and presentations

1. Invited lecturer at [Amazon Sustainability](#) (~150 attendees). January 15, 2023.

2. [Moran, D.](#) Input Output Analysis and Industrial Ecology. Guest lecture for industrial ecology masters students at the [University of Southern Denmark](#) (~30 attendees), November 11, 2020.

3. [Moran, D.](#) From Satellite to Supply Chain: Connecting earth observations to economic decisions. [Invited lecture at The Turing Institute](#) (~70 attendees), October 28, 2020.

Programming Languages

The languages I have used include: Ada, C/C++, HTML5, Java, Javascript, Julia, MATLAB, MPI, OpenMP, PBS/Torque, Perl, PHP, Python, SQL, WebGL, XML. Experience building web applications using JSP/Tomcat, d3, Three.js, PHP, AJAX, and HTML5. Experience administering and developing for HPC, cluster, and cloud/AWS systems.
